Professional Summary

Detail-oriented Computer Science graduate with hands-on experience in data collection, cleaning, analysis, and business intelligence reporting using large-scale real-world datasets. Proficient in SQL, Python, Excel, Power BI, and Tableau for extracting insights, identifying trends, building interactive dashboards, and generating reports that support data-driven business decisions. Experienced in performing exploratory data analysis, KPI tracking, and delivering actionable insights through analytical and visualization techniques.

Education

Bachelor of Technology in Computer Science 2021 – 2025
Vidya Academy of Science and Technology (APJ Abdul Kalam Technological University) CGPA: 8.24/10

Technical Skills

Data Analysis & Reporting: Exploratory Data Analysis (EDA), Data Cleaning, Data Validation, Data Profiling, Trend Analysis, Statistical Analysis, KPI Tracking, Report Generation, Business Analytics

BI & Visualization: Power BI (DAX, Power Query, Interactive Dashboards), Tableau, Matplotlib, Seaborn

Programming & Databases: Python (Pandas, NumPy, Scikit-learn), SQL (Joins, Window Functions, Subqueries, CTEs, Views), MySQL, SQLite

Excel: Pivot Tables, VLOOKUP, Power Query, Advanced Charts, Data Analysis ToolPak, Dynamic Dashboards

Machine Learning: Classification, Regression, Feature Engineering

Tools: Git, GitHub, Streamlit, Jupyter Notebook, Google Colab, VS Code

Soft Skills: Analytical Thinking, Attention to Detail, Communication, Collaboration

Experience

Data Science Intern – Codec Technologies Pvt. Ltd. (Remote) Dec 2025 – Feb 2026
AICTE & ICAC Approved

- Collected, cleaned, and analyzed 2.26M+ records from multiple sources using Python and SQL to identify trends, patterns, and actionable business insights across credit risk and predictive maintenance domains.
- Built interactive Power BI dashboards and Streamlit applications to track KPIs, generate reports, and present data-driven findings to cross-functional stakeholders.
- Performed data validation, quality checks, and profiling to maintain data integrity; developed modular Python pipelines to automate and document analytical workflows.

Projects

Brazilian E-Commerce End-to-End Data Analysis using SQL & Power BI GitHub
MySQL, SQL, Power BI

- Analyzed 100,000+ orders across 9 relational tables — wrote 78 SQL queries including window functions, CTEs, and subqueries to extract revenue, delivery, and customer behavior insights.
- Built a 4-page interactive Power BI dashboard with DAX measures and KPI cards; identified São Paulo drives 38% of revenue, late delivery rate is 8.11%, and repeat customer rate is near zero.

Credit Risk Prediction & Analysis System GitHub | Live App
Python, SQL, Scikit-learn, Power BI, Streamlit

- Analyzed 2.26M loan records using chunk-based Python pipelines — performing EDA, data cleaning, and feature engineering across 151 columns to identify default risk patterns across borrower attributes.
- Built a Power BI dashboard and Streamlit app to generate reports on default rates and risk segments; achieved ROC-AUC of 0.71 supporting data-driven lending decisions.

Telecom Customer Churn Prediction & Business Analytics GitHub | Live App
Python, Pandas, Power BI, Scikit-learn, Streamlit

- Analyzed customer data to identify churn patterns across contract types, payment methods, and service categories — identifying key business drivers and delivering targeted retention recommendations.
- Built a 2-page Power BI executive dashboard tracking churn rate and revenue at risk; deployed a live Streamlit app for real-time KPI monitoring by non-technical stakeholders.

Certifications

- IBM Data Analyst Professional Certificate** — IBM & Coursera
- Data Analytics Job Simulation** — Deloitte via Forage
- IBM Data Science Professional Certificate** — IBM & Coursera
- Tata GenAI Powered Data Analytics Simulation** — Tata via Forage

Leadership & Activities

- College Media Head & Arts Committee Head** (2024–2025)
- Core Coordinator** — Arts & Tech Festivals (2023–2025)
- Magazine Editor & Student Union Member** (2023–2025)
